

# Tummy Tom

## **Tummy Toms Colourful Life**

What's it like to be... Tummy Tom the cat? If you walk on 4 paws, can't talk, but can purr. That you can lay down everywhere, even in the strangest places. Or that you can run across the piano keys. Dancing with your best friends. Secretly fishing in the fishbowl and then a long lovely sleep full of dreams of all the adventures you had.

In the play, Tummy Tom moves across the stage through interactive projections and video. Two actors bring his world alive through physical slapstick and lots of humour. They play a game with appearing and disappearing, fantasy and reality. But is their imagination not too big? Do you see what I see?

With the original drawings of Jet Boeke.

Tummy Tom, Dikkie Dik in Dutch, the mischievous orange tomcat who loves eating and spending time with his cat friends. Tummy Tom is the favourite cat of young (and not so young) readers in the Netherlands, well known for his TV performances on Sesame Street. Tummy Tom has proven to be a huge book selling success, with over 5 million copies within the series sold in the Netherlands alone.

### **2-ater Productions**

2-ater Productions has been producing youth theatre performances and theatre festivals for about twenty years. This season, 2020-2021, despite corona, three new performances will have their premiere! Little Paper doll, Robbie & Roef and The Mouse Mansion, Sam & Julia, on a journey.
