Stage

Empty stage with a flat surface of concrete, wood, decking, (sidewalk)tiles, sportfloor, dancefloor.

If none of the above, please in consultation.

Minimal measurements of the surface: 6 x 6 meters

If smaller, please in consultation.

Sound

If we travel by car we will bring our own PA system consisting of 2 top speakers and 2 sub speakers. they will be placed left and right from the performance area. We will also place 2 FX speakers behind the audience.

If we travel by plane/train, or if the venue has their own PA, please consult our technician.

Our technician will control the sound, if we come by car with their own soundtable. If the venue has a soundtable available, please consult our technician.

We would like to use a chair and a table from the venue for our technician.

We will play max 100 Db(a). There is no live music, everything is played from a laptop.

Power

At least 1 power group

Set

Carpet consisting of 3 parts, combined taking space of 5,5 by 6 meters

Audience

Tribune or benches/chairs at one side of the stage, or a light half moon shape. The company does not bring this themselves.

Important! Bad weather scenario

If it's raining or there are wet conditions it is unfortunately not possible to perform *On a lonely island* due to the set. Performing without the set is unfortunately not an option. *Rescheduling or relocating the performance in consultation on site.*
